THE  
FOURTH VOLUME  
OF THE  
ANTIQUITIES OF ATHENS,  
&c.

MEASURED AND DELINEATED

By JAMES STUART, F.R.S. and F.S.A. and  
NICHOLAS REVETT, Painters and Architects;

EDITED BY  
JOS. WOODS, Architect.

Printed for J. TAYLOR, at the Architectural Library,  
No. 59, High Holborn, London.

This volume contains 88 Plates, besides 15 Vignettes, engraved by the best artists, uniformly with the preceding volumes; together with historical and descriptive accounts of the several subjects: also a Portrait of Mr. REVETT, from a picture painted by himself, and engraved in the line manner, by ISAAC TAYLOR, and Memoirs of the Lives of the Authors.

Messrs. STUART and REVETT being detained at Venice, in their way to Athens, made an excursion to Pola, where they passed three months in measuring the subjects, and in making the drawings, which are now submitted to the public; and which formed a part of their original scheme of publication.

The admiration with which these remains of antiquity have always been mentioned, no less than their intrinsic merits, render it

desirable that they should be offered in complete detail to the public, which has by no means been the case in any of the works in which they have hitherto been noticed. The subjects are an Amphitheatre, the temple of Rome and Augustus, and the Arch of the Sergii.

The Sketch-books of Messrs. STUART and REVETT have furnished several plates of curious fragments of Ancient Architecture and Sculpture found in the Greek Islands, with Views of Mount Parnassus and the Rock of Delphi.

The exquisite sculptures which adorned the Temple of *Minerva at Athens*, have ever been objects of the highest admiration, and are now become particularly interesting, from the circumstance of a large portion of them having arrived in this country, and forming the principal feature of *Lord Elgin's Museum*. Of these beautiful specimens of ancient art, there are Thirty-four Plates, from Drawings by Mr. PARS, representing the entire west frieze of the Cell, with some parts of the north and south sides, and several of the Metopes of the exterior frieze. These, with those already published in the second volume of this work, exhibit all the sculpture which remained of the Temple at the time (1751) STUART and REVETT were at Athens. Amongst these are Five Plates, showing the state of the sculpture in the Pediments in the year 1683, when visited by the Marquis de NOINTEL, from copies of the original Drawings in the King's Library at Paris. These valuable documents show the entire composition of the sculpture in the west front.
